

The 9th International Conference of Asian Concrete Federation (ACF 2020)

“ADVANCED & INNOVATIVE CONCRETE TECHNOLOGY FOR THE NEW DECADE”

Themes and Topics

- **Advanced & Innovative Design**
Durability design, service life design, life cycle design, performance based design, Design for extreme loads and extreme conditions, etc.
- **Advanced & Innovative Materials for Concrete Construction**
New cementitious materials; New technologies for aggregates, admixtures and other additives for construction; 3-D printing materials, self-healing materials, functional materials, etc.
- **Advanced & Innovative Construction Techniques**
Advanced technologies for construction, 3-D printing construction, precast concrete construction, construction using new materials such as UHPC, etc.
- **Advanced & Innovative Technologies for Maintenance**
Advanced techniques for inspection, testing, intervention repair materials, strengthening, maintenance planning, etc.
- **New Codes, Standards and Specifications**
- **Other related topics**

Conference chairman: Prof. Dr. Somnuk Tangtermsirikul , SIIT

Conference date

26-27 November 2020

-

Venue:

Swissotel Pathong, Phuket,
Thailand

-

Abstract submission:

February 29, 2020

-

Full paper submission:

May 31, 2020

-

Early bird registration:

September 30, 2020

Contact information:

Conference secretariat
Asst. Prof. Dr. Parntep Julnipitawong
